

RECONDITIONING

STOP WASTING GOOD PRODUCTS

RECONDITIONING CUTS COSTS AND TOOL INVENTORY

Seco's modern solid carbide tools offer remarkable performance by utilizing the best combinations of: carbide substrates with high wear resistant coatings, optimized cutting geometry and controlled edge preparation. However good a tool is, as part of their function, they will eventually show signs of wear of the cutting edge. Controlling this wear and the timely replacement of the tool will allow the used tool to be reconditioned, thus reducing tool investment costs.

At Seco, your solid carbide tools are reconditioned using the same advanced technology and care that we use to manufacture our new products.

YOUR BENEFITS FROM RECONDITIONING

- Manufactured to Seco's high standards with the original Seco geometry, edge preparation and coating processes.
- Savings on tooling costs by repeated use of the same solid carbide tool.
- Our easy to use and free reconditioning box includes a pre-prepared delivery note
- Free, reliable collection on the following day when you call your Seco contact for pick up.
- An easy process due to the package service, reconditioning box and pre-prepared delivery note. Delivery via the normal Seco channels.
- Safe transportation and storage of the reconditioned tools by packaging them in similar packaging as new tools. A new packaging label is included.
- Work towards a greener and cleaner environment. – Seco's processes are globally certified with ISO14001.
- Guaranteed quality, as all processes are ISO9001 certified.

A complete service provides you with reconditioned tools that guarantee performance to the high standards of Seco products.

THE RECONDITIONING PROCEDURE – EVERYTHING FROM A SINGLE SOURCE

- You save the used solid carbide tools in the Seco reconditioning box that we provide free.
- When you have a sufficient quantity of tools to be reconditioned you simply complete the included delivery note and inform your Seco contact that the box is ready to be picked up.
- Seco will ensure that the box is collected the next day using our parcel service partner. The driver provides all the necessary delivery papers and assigns these to the box.
- Upon receipt, the tools are checked in our manufacturing plants, reconditioned using the original processes, inspected and re-packaged. Tools which cannot be reconditioned are returned to you.
- Your reconditioned tools are delivered through our distribution centres. To ensure high quality and safe transport the tools are all individually packed within the reconditioning box. The whole process from door to door will take a maximum of 15 working days, allowing you uninterrupted tool supply and maintaining a continual production process.
